MIDDLE DISTRICT.

Baptist Association in Session at Enon Church.

Enon Church.

(Special to The Times-Dispatch.)

CHESTER. VA., August S.—The Middle District Association met at Enon Church, Chesterfield county, to-day in its one hundred and twenty-second annual season. The body was called to order by the moderator of the last session. Dr. John R. Bagby.

Letters from all of the twenty-nize churches composing the body were read by the clerk, and from these letters it was evident that the churches had made a very marked improvement in the contributions to the board of the General Aesociation of Virginia.

The association re-elected its old officers for this session by Dr. J. R. Bagby as clerk and treasurer.

The executive board was elected, with R. A. Justis as chairman. The other members elected were J. E. Davidson, W. W. Baker, John S. Taylor, J. H. Hobson, A. J. Horner and R. H. Bruce, preached the introductory sermon, his subject being "Individual Work For the Master."

At the evening session the subject of

subject being "Individual Work For the Master".

At the evening session the subject of the Sunday School and Bible Board was introduced by a report by W. B. Gates, and was discussed by Dr. J. M. Pilcher, The report of the executive board of last year was then taken up and discussed by J. H. Morran, Dr. Alfred Bagby, Mr. Justice, B. N. Davidson and other, Great improvement was made in many of the churches through the efforts of this board, and great praise was given by many members of this board to Brother Justice, who was chairman, for his earnest and faithful work.

The report was adopted. The association adjourned to meet at the regular hour to-morrow, 10 clock.

Richmond, Discusses Subject.

Dr. J. B. Coakley, a former practitioner of Richmond, and once a well known man of this city, has come out in the Buffalo Times, of Buffalo, N. Y., with a strong argument for municipal ownership. He urdeptakes to show that municipal ownership, as compared with private ownership, means less corruption, a decrease in expenditure and better working utilities. By the apt use of figures and the statistics drawn from those cities in both Europe and this country in which experiments have already been made in municipal ownership of public utilities, he shows that the municipality-owned utilities are far more satisfactory, both finanities are far more satisfactory, both finan-cially and in effect, than personally-owned utilities. Cities he proves, gain a good revenue, city officials are less apt to be-come corrupt, because of the lack of cor-porate interests to exert over them an

No freight, express or mail matter shall, under the proclamation, he refused from infected territories, provided it is carried in cars which have been fumigated by the marine hospital service. All persons who disregard these regulations are warned that they make themselves liable to answer in the court. If is announced that no more illegal restrictions on travel will be tolorated. It is understood that the action taken by the Board of Health has the full sympathy of Governor Blanchard.

Increase in Cases.

Because of the large number of cases reported the fever situation did not have so favorable an aspect to-day, but it is understood that the increase is the result of the investigation of a number of suspicious cases of sickness, some of which the health authorities were unable to incurre into vesterday. The inspectors of pleious cases of sickness, some of which the health authorities were unable to inquire into yesterday. The inspectors of the marine hospital service spent much of the day in their investigation, and their reports showed an increase in the number of cases from moon to 3 o'clock. Practically all doubt of the raising of the fund of a quarter of a million desired by the government was removed to-day when both the State and city moved to assist the citizens of New Orleans. Government linearing the continuation of the fund of a quarter of million dasked to advance \$100.090, wired Mr. Janvier that he would make the loan as soon as he heard from a sufficient number of members of the Legislature if they was support an appropriation of \$100,000.

Affirmative answers are being received. In addition to this action of the Governor, the city took steps to swell the hands of the citizens' committee, \$20.500 is now in sight.

Burgeon White put in a haid halfday's work here and in the afternoon took a train for Lafayette, Lt., to attend a conference of various health boards in that section of the State, called with a view to securing an amelioration of quarantine regulations. Dr. White expects that by to-morrow night all of the additional health officers which the government has ordered to New Orleans will be here.

The difficulties the authorities encounter in trying to get at concealed cases was illustrated to-day when Pribes Officer T. E. Gregson was perhaps fatally injured while arctics to break into a house on Chattres Street, where there was known to be a case of yellow fever. Gregson was called on to assist the suthorities. So stubborn was the conceition of the people against invasion by the inspectors that it became necessary to break in, with the result that a heavy taken door fell on Gregson and crushed him. He was removed to the hospital.

NEGRO JOCKEY'S LEG BROKEN

The Programme Carried Out Through Fall of Rain.

(Special to The Times-Disparch.) STAUNTON, VA., Aug. 8 .- Rain kept the crowd down to 3,000 people at the opening day of the second annual Horse was an enthusiastic audience that anplauded the events heartly, and at times expressed its intense disapproval of the awards by hissing vigorously. This was especially noticeable in the heavy harness class, in which Mr. David Dunlop's "Watch Mo" captured the blue over Messrs. Hale & Garber's entry. The grand stand did not like the decision, hissing "Watch Mo" and cheering Mr. Garber loudly as he drove around the rins. It is a fact that Garber is the horse lifing in this section, and his winning means a local and popular victory. One accident occurred during the day. Joe Welberne, a negro jockey from Washington, riding "Effic Shepherd," fell on the near turn in the first flat race and was dragged for some distance. The boy's log was broken. His mount continued in the race and finished well up with the winner as they raced under the wire. grand stand did not like the decision,

Twenty or more special witnesses had thought that the poll had been abandoned. About a hundred or more voters appeared, however, and the work of probing was deferred until these could be
recorded as to their preference for sergeant and for attorney. Meanwhile the
special witnesses, some of whom had
been before the jury once already, were
impatiently awaiting their turn to undergo the inquisitorial ordeal and be done

After having lost the whole day, they left with the prospect of another day of waiting before them. Some of these were impatient to be at their business places, but they had to accept the situation with as much grace as they could.

Commissioner of Labor James B. Do herty, whose office is just across the street from the City Hall, was in the hall all day awalting the call of the Jury. He was not called at all. When churt hallourney Richardson told Mr. Doherty that he might remain at his office to-day, and when called for by the jury. Would be notified. May Indict Several.

With the end of the inquiring nearing, speculation is again rife as to the probable findings of the jury. The most clearly and strongly defined runors include one that three precincis are under subsicion, but which three rumor does not specify. They are said to be in Lec. Jefterson and Marshall; but this is largely conjecture. It is not asserted with any definitiones that there have been cross frauds in all three, if in any, but that irregularities are suspected there. This inference is sustained in par, by the names and residences of the winnesses and the relation some of them hore to the municipal contest. It is not believed by those in close touch with the situation that irregularities sufficient to reverge the result of the ballot count have been discovered anywhere, but that in two of three precipets there is strong cuspicion that the law has been violated. It is reported that at least four and reashly seven or eight indictments will be returned when the jury nyikes its final report. Who will be indeed it would hardly the fair to state in the uncertainty and secrecy with which the proceeding is shrouded. It is said, however, that certain officers of election in one and nossibly in more than one precinct will be among the indicted. Another likely to be indicted is said to be a man who yoted, though he ind not answer an indictment, but there is so far no definite basts for this rumor, nor is the precise nature of the equalitates in the recent primary may also linvic to answer an indictment, but there is so far no definite basts for this rumor, nor is the precise nature of the equalitates in the recent primary may also linvic to answer an indictment, but there is so far no definite basts for this rumor, nor is the precise nature of the effence stream indictments can only be conjectured.

Searchingly Questioned.

Those who underwent the searching questions of the jury yesterday included Superintendent of Gas Works W. P. Knowles, Deputy City Treasurer Isnae Held, Registrar Archie Stoher, of First Jefferson; Clerk Abe Cohen, of First Jefferson; Clerk E. W. Lovenstein, of Third Monroe; Colonel W. Miles Cary, Emmett Meanley, an employ of the Gas Department; William Brauer, ex-treasurer of theurico; William Tate, an employe of the Cedar Works; Secretary Walter G. Manniag, 17., of Jefferson Ward; and Mr. Witt E. Taylor, former member of the City Electoral Board. Registrar Percy L. Smith, of Third Marshall, was also among those summoned.

Hourd. Registrar Percy L. Smith. Of Summonoed.

The testimony of the witnesses related to the precincts in which some were election officers, and to alleged irregularities. That of some of the other witnesses had to do with rumors that poll taxes had been paid by certain candidates for votors, presumably to secure the votes of the boneficaries. The testimony of Mr. Wirt E. Taylor, it is said, related to the method of selecting election officers by the Electoral Board, and of filling vacancies occurring almong those selected. It is said that the questions of the jurcations were personal questions. The use of money or the payment to others or the receipt from others of money for acrecies performed in behalf of any candidates, is said to have been the subject of many queries by the injuried; eight citizens, clothed with power by the court. Mr. Chris. Manning, Jr., was the last witness yesterday. He was heard after 6 P. M. as ha accommodation, because of the fact that a relative was expected home ill on a train, and would have to be taken to a hospital. Mr. Manning spent about fifteen or twenty minutes in the jury-room, and was then excubed. The other specially called witnesses will depose to-day, and by that time it will be known whether the attendance of more wincesses is desired. Those who waited all of yesterday will, it is assumed, be given precedence to-day.

Rule Not Yet Served.

So far as known, the rule which Judge Witt stated he would issue has not yet beeen served, if it has been issued. Speculation has settled pretty well upon the person to whom it is supposed the court had reference, but up to last night the rule had not been served upon him. It is not known whether this action will be necessary at all, and if so it is probably a mistake on the part of the speculative ones as to the identity of the man wanted.

the jury all day, he has little opportunity to do this work.

Three members of the jury yesterday expressed the belief that not more than 3.20 or 3.900 of the 5.200 voters had been pelled. Stenographer Winston, however, acreed with the satimate of The Times-Dispatch that something like 3.700 or 3.800 had been polled. This latter number is slightly more than two-thirds of the total vote. One of the jurors said that in some precincts almost all the voters had been polled, but that in others, notably in the fashiomable West End, many of the residents of which had gone to summer resbrits, inrally more than half had been polled. The poll as regarded as a fair index to most of the precincts, and especially to the vote cast in those said to be under suspicion.
